

## DEMOLITION OF ARMY TOO COMPLETE

Aeronautical Warfare and  
Medical Branches Are Left  
Short of Personnel.

## NEED GUARDS FOR STORES

Five Billion Dollars' Worth of Army  
Supplies Here and in France  
Need Protection.

WASHINGTON, Aug. 26.—Within two weeks the House military committee, with the exception of the chemical warfare and medical branches, will pull up to meet the bill, it is now a law before next session. Representative Julius Kahn, chairman of the committee, is spending today in outlining his

complaints from inside and outside the agency. That the slashing of appropriations in the house in the framing of the 1919-20 bill has resulted in "demobilization" of the great army he will call upon to meet the demands.

Members of the house military committee now frankly admit they went too far in their program of economy. They are being forced to come back to the house with emergency legislation asking the Congress increase in the army per capita of offices to 18,000, or nearly double the number provided for in the original appropriation bill. The additional appropriation is possible by expediting Kahn today, by the creation of providing offices for the creation, chemical war and medical branches of the army service, and for supplying of offices to command the men needed to sustain the \$3,000,000,000 army now in France and in this country.

We realize the value of the avia-

tion service and of the chemical war service both of which are now under the military control of the government and grew up with the war. We had no intentions of ending either service and we do think that we have done so. We want all the desirable officer fliers and technical experts can be kept in our service under temporary plans and we have prepared the army reorganization plans.

But we want to get the aviation service on a business basis. General

Weather Helps Cotton.

WASHINGTON, Aug. 26.—Weather

during the week was generally favorable to the cotton belt according to the crop bulletin of the department of agriculture issued today.

Washington, Aug. 26.—Following the organization of the job printers of Oklahoma, southeast Kansas, west Arkansas and west Missouri yesterday at a meeting at the Stevens Hotel under the name of Southwestern Typothetae Federation, was adopted the following were elected to office for the remainder of the current year: J. L. Cockrell of Tulsa, Okla., president; W. H. Wiman of Fort Smith, Ark., W. F. Manning of Joplin, Mo., and A. W. Weiss of Wichita, Kan., vice presidents; and R. V. Heryer of Oklahoma City, secretary.

The purpose of the organization is to improve business methods and ethics in the printing industry and to co-operate with employees in obtaining the best results.

## Six Trainmen Killed in Michigan Wreck

TRAVERSE CITY, Mich., Aug. 26.

Six persons, all members of train crews, were killed and 15 passengers injured when Pere Marquette freight train No. 255, northbound, plowed headlong into southbound Traverse City-Grand Rapids passenger train No. 6 at Graven, Michigan, today.
